#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Claims 1, 18, 20 and 21 are pending in the instant application. Claims 2-17 and 19 are canceled.

#### ***Response to RCE***

Applicant's response, amendment to the claims, and 132 declaration filed on 10/15/2007 are acknowledged. Claim 19 was objected to as being a substantial duplicated. Claim 19 is canceled and this rejection has been overcome.

Claim 20 was rejected under 112, 1<sup>st</sup> paragraph for lack of enablement. The 132 declaration filed to overcome this rejection is acknowledged, but does not overcome the enablement rejection. 35 U.S.C. 112, 1<sup>st</sup> paragraph states "the specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same, and shall set forth the best mode contemplated by the inventor of carrying out his invention." A 132 declaration alone does not overcome this rejection. A showing must be made that at the time of application that Applicants has possession of the invention. In addition, the 132 declaration shows EP2 binding activity, but does not explain the correlation between EP2 binding activity and the treatment of retinal neuropathy. The treatment of retinal neuropathy is not well known in the art. In addition, the instant specification contains no biological data to show that Applicants had possession of the method of treating retinal neuropathy using the compound of formula (I-a1-1) at the time of filing. Therefore, the 112 rejection is sustained.

Art Unit: 1626

All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
